Airport Pavement

Commercial Application

Project Information

Project Name:

Contract ID *(if applicable)*:

Project Completion Date (Opened to Traffic):

General Directions to Project Site:

County Route and Mile Point *(if applicable)*:

Total Tons of Asphalt Used:

Which Asphalt Plant produced a majority of the mix used on this project?

Project Narratives

Please provide a narrative overview of the project. Be sure to explain why the project is worthy of consideration. You may also use this space to detail any unique project complexities, difficulties that you overcame, ride quality data (if available), or any other miscellaneous factors that you believe we should consider.

Please describe your efforts to maintain work-zone safety for your employees and the motoring public. You may include any information or data that supports your safety efforts.

Quality Control Data

Please download the Quality Control Data table (found in the Paving Awards announcement email), complete the sheets with your project data, and re-upload below.

Please upload your completed Quality Control Data spreadsheet here.

Project Photos

Each of the required photos will assist the committee in scoring your application. Please provide the best images to illustrate each aspect of your project:

Project Overview - aerial, overpass, or wide angle providing good perspective of the project.

Close-up photo that is representative of the mat texture and would depict mixture quality and show segregation (or lack thereof).

Close-up photo that is representative of a longitudinal joint.

Close-up photo that is representative of a transverse joint.

Photo that would help illustrate the complexity of the project.

Photo to support the narrative and that highlight any miscellaneous factors that the committee should be aware of.

Up to five (5) additional photos that would help the committee understand and evaluate the project.

Billing Contact

The cost per nomination is $200. Please complete the information below so that an invoice can be generated and sent to the proper contact.
